

Lesson 6 - Movement

- Bones are the structure of the body.
- Truth is the structure of the Body of Christ.
- The core of God's structure is His law
- God's law is to love God and others.
- So, the law of love is the structure that is the frame of the Body of Christ.

As rigid and as hard as bones are, movement is impossible without them. The Body of Christ cannot move world without the structure of God's Law of Love.

1. Write down or discuss how fear restricts movement.
2. If fear restricts movement, then what does God teach us about the solution to fear in 1 John 4:16-21?
3. How does living by the 10 Commandments in Exodus 20 solve the problem of fear? (this is a tricky one)
4. Do God's commands restrict movement or enable movement?
